EDUCATION

Reva University

Bachelor of Technology in Computer Science Engineering

8.5 CGPA , Bengaluru

July 2020 – July 2024

Deeksha Junior College

Higher Secondary Education (MPC)

9.0 CGPA, Hyderabad

June 2018 – June 2020

EXPERIENCE

Data Analyst , Mashreq Bank

Jan 2024 – Dec 2024

- Created and maintained Power BI dashboards to visualize and analyze key performance indicators and metrics for improved decision-making.
- Managed and updated databases, ensuring data integrity and accuracy to support operational and analytical needs.
- Designed and managed request catalogues within Helix ITSM to streamline service management workflows, improving accessibility and efficiency.
- Conducted regular audits of the Configuration Management Database (CMDB) to ensure consistency and reliability
- Participated in daily huddle calls, contributing to service improvement initiatives with data-driven recommendations.
- Analyzed and resolved data quality issues in incident and request records, enhancing the reliability of operational data.

PROJECTS

Fetal health Classification

- Built a machine-learning model for Fetal Cardiotocography (CTG). This approach automates the classification of fetal cardiotocography (CTG) patterns, enhancing fetal care accuracy and consistency.

Detection of Autism Spectrum Disorder (ASD)

- Made a significant contribution to building a Machine Learning project for early ASD detection, utilizing advanced algorithms and achieving significant accuracy gains. Designed and implemented a website utilising machine learning models to calculate the likelihood of Autism Spectrum Disorder (ASD) in patients

TECHNICAL SKILLS

Languages: Java, SQL, HTML, Power Bi, Dashboards, Data visualizations, Advance Excel, ITSM tools, CMDB

Developer Tools: AWS, VS Code, , Power Bi, ITSM, Eclipse

Libraries: pandas, NumPy, Matplotlib

CERTIFICATIONS

- AWS: AWS Certified Cloud Practitioner
- Coursera: Mastering Data Analysis in Excel (authorized by Univ. Of Duke)
- Coursera: Python for Data Science, AI Development (authorized by IBM)
- Introduction to the Internet of Things and Embedded Systems)
- Here's the link for the certifiates - [Certificates](#)
